

FORSTNER - RM 6 1250 110 MOP - 2006

Manufacturer: **FORSTNER**

Type: **RM 6 1250 110 MOP**

Year of manufacturing: **2006**

Description:

FORSTNER - RM 6 1250 110 MOP - 2006

- decoiler + straightening line + cut to length line (CTL) + slitting line (never used as slitting line although some 2 knives are available)
- coil parameters: 3000 kg weight and 250-1250 mm width), max 25 m/min with frequency changer
- coil parameters: 2400 kg weight and 1000 mm width
- coil parameters: 1800 kg weight and 750 mm width
- straightening capacity of RM-6-1500-110: max 1,5 mm thickness, 250-1250 mm width (400 N/mm²), max 25 m/min with frequency changer, main motor 2,2 kW
- slitting capacity - 3 knives: 1,5x1250 mm (400 N/mm²)
- slitting capacity - 5 knives: 1,0x1250 mm (400 N/mm²)
- cutting capacity for CTL: 1,5 mm thickness, 250-1250 mm width (400 N/mm²), max 1,5 s/cut
- table shears capacity: 1,5x1250 mm (400 N/mm²)
- material thickness 0,4 to max 1,5 mm
- not under power, can NOT be inspected in running condition
- good condition as showed on photos (used max for 15%)
